

DESCRIPTION:

Supporting the MEG003-E engine repair program, the MEG003-SC Start Cart contains all OEM components and accessories necessary for starting and running an engine (MEG003-E). Live running is made easy by providing all necessary connections to allow the instructor and students to attach a fully functional engine. The start cart will provide the starting function and basic testing capacity for the engines in the program.

EDUCATIONAL ADVANTAGES:

- Accessibility of engine components is made easy
- Single starting station that can be used with multiple engines
- All rotating components are covered with safety shields or guards to prevent injuries
- Ability to verify proper engine operation before and after

STANDARD FEATURES:

- OEM Dash
- OEM components, wiring, connectors and wire colors
- Starter and alternator
- Radiator and connection hoses
- Gas tank and lines
- PCM w/ integrated Breakout Box (BOB)
- Transmission flywheel
- OBDII data link connector
- Emergency stop button
- Digital Copy of Service/Maintenance Manuals

DIMENSIONS:

Approx. Size: 40" x 44" x 60" (102 x 112 x 153 cm)
Approx. Weight: 575 lbs. (260 kg)
