

# Become a partner of LAB Midwest's

LAB Midwest and Discovery World have partnered to bring an exciting, hands-on drone event to Milwaukee this fall, and we want you to be part of it!

November 8, 2023 from 9am-4pm at Discovery World

## What is Drone Fest?

Drone Fest is a one-day event where educators, student groups and the general public can come learn about drone technology, fly drones in indoor cages, and discover how drones are being used in the classroom and across industries.

This will be a special event that takes place during Discovery World's regular public hours, so Drone Fest attendees will get access to Discovery World exhibits, and those visiting Discovery World will get to experience the fun events of Drone Fest as well.

## Why become a partner?

- Share your knowledge and insights with educators and the next generation
- Free exposure for your organization to all attendees
- Recognition as an event partner in marketing materials

Plus...it doesn't cost anything to be a partner of Drone Fest.

There are two great opportunities for you to get involved. We encourage you to take advantage of both:

## Speaking & Professional Development

Throughout the morning and early afternoon we will have a series of professional development sessions for educators. This is your chance to present your unique knowledge about drone technology & applications.

## Table Space at Drone Fest

Showcase your organization to attendees right at the heart of the action! Partners will receive an 8' table in the Drone Fest arena.

To become a partner or if you would like more information, contact Melissa Martin, Director of Marketing for LAB Midwest: [mmartin@labmidwest.com](mailto:mmartin@labmidwest.com).
